

245

Conditions:

1. Each system cost includes basic cost + Annual Maintenance Cost @2% per year for 10 years.
2. The duration of the project will be two years including the warranty period. However the systems and devices shall be installed in the first year itself and in no case beyond 24 months from the date of sanction of the project.

Other Terms & Conditions:

1. MNES will not give any financial support towards recurring cost of the Energy Park. This will be the responsibility of the Institution/ Organization, where Energy Park is set up. It will be mandatory for the institution concerned to enter into an Annual Maintenance Contract (AMC) for a period of 10 years, excluding warranty period. The AMC cost (about 2 percent per annum) may be included as a part of the cost of energy systems and devices.
2. MNES will arrange Training Programme for the Officer In-charge/ Nodal Officer of the Energy Park in the maintenance and operation of the systems and devices through NEDCAP.
3. The sanction of Energy Parks and type of Renewable Energy Systems/Devices in it will be decided by the Energy Park Committee of MNES.
4. The responsibility of proper operation and Maintenance of Energy systems and devices will be of the concerned Organization/ Institution, where the Energy Park is set up.

Therefore, the matter is placed before the VUDA Board for ratification in having proposed for establishment of the Renewable Energy Park in an extent of Ac.0.75 Cts on Kailasa Hill with the above sanctioned configuration systems and devices on payment of 50% VUDA share of Rs.2,76,400/-.
