

SUBJECT NO. 539 :

PLG.RC.NO.939/83-31.

SUB:- Revised road alignment for formation of road from Old Gajuwaka Junction to Kanithi Road - Road width reduced from 130' to 60' width - Regarding.

AGENDA NOTE :

In the Gajuwaka Zonal Development Plan, the road width from Old Gajuwaka Junction to Kanithi road is earmarked as 130' width. Since lot of developments have come up and acquiring land to 130' width has become a problematic issue, the road width has been reduced from 130' to 80' width.

It has been further considered to reduce it to 60' width in view of the functional change of this road and also in view of the non-continuance of the road beyond Pedagantyada colony. It has also been considered necessary to expedite the Land Acquisition by contacting the land owners to have this 60' road formed avoiding unending litigation which will result in implementation of the road early. As in Gajuwaka area land prices have been shooting up day by day, it may be better to solve the land acquisition as early as possible.

Taking into consideration of the above facts, the Vice-Chairman, V.U.D.A. in his order dated 11.12.92 has agreed to reduce the road width from 130' to 60' width. Accordingly the revised L.A. Schedule for 60' width have been prepared and sent to L.A.O., V.U.D.A. vide
